KL-4047-2024 - SOCKET, E24, 3/4"

Suitable for brake disc screws with E24 Torx® Profile, as found in MAN and SAF axle systems.

For the professional loosening and tightening of brake disc screws with E24 Torx® Profile on axle systems.

The socket features an extra-large 3/4" square drive (standard sockets usually only have a 1/2" drive) designed to prevent it from shearing off the breaker bar for example when loosening very tight-fitting/stuck brake disc retaining screws.

KL-1070-10.. B - EXTERNAL HEXALOBULAR SLOGGING SPANNER, 3/4"

The external hexalobular slogging spanner is designed to facilitate the loosening/tightening of the brake calliper bolts found at the front and trailer axle of, e.g., MAN TGL and TGM. The slogging spanner features a 3/4" square socket and is engraved with a torque conversion formula (necessary due to the extended lever), thus, allowing the user to tighten brake calliper bolts - by means of a suitable 3/4" torque wrench - quickly and easily according to manufacturer specifications.

KL-1070-1018 B

EXTERNAL HEXALOBULAR SLOGGING SPANNER, E18

Suitable for use on brake calliper bolts (with Torx Profile) as found at the front and trailer axle of MAN TGL and TGM.

KL-1070-1020 B

EXTERNAL HEXALOBULAR SLOGGING SPANNER, E20

Suitable for use on brake calliper bolts (with Torx Profile) as found at the front axle of MAN TGL and TGM.

KL-1070-1024 B

EXTERNAL HEXALOBULAR SLOGGING SPANNER, E24

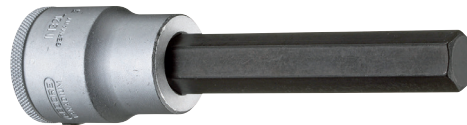

Suitable for use on brake calliper bolts (with Torx Profile) as found at the front and trailer axle of MAN TGA, TGS and TGX; Mercedes-Benz Atego (967).

IN 32 L 14-155 - SCREWDRIVER BIT SOCKET, 14MM / HEX SOCKET / 3/4" / LONG; CODE 2003503

Universally applicable to HGV brake calliper fastening bolts with 14mm waf size / hex socket.

For the professional loosening and tightening of brake calliper fastening bolts. The long design (155mm) allows even deep-seated brake calliper bolts to be reached with ease.
